SERVICE REQUIREMENTS

TYPE OF CYLINDER	NO OF CYLINDERS	WILL A CURRENT TECH DATA SHEET BE SUPPLIED? (Circle appropriate) IMPORTANT: Please check currency before sending.	
			Data source:
			Data source:
			Data source:
Note: Contact FSS via phone or email regarding any oxygen cylinder valve replacement enquiries.			

IMPORTANT NOTES TO READ BEFORE PLACING ORDER

All aviation cylinders require a current (approved) technical data sheet (TDS) to be supplied with the relevant cylinder before services (inspection/testing) can be conducted. Ensure that all cylinders have a readable Design Registration sticker attached. (Any cylinders received without a (readable) design registration shall be condemned in accordance with AS 2337)

It is the responsibility of the client to ensure that provided technical data is current.

Customers are required to arrange delivery and collection of all cylinders.

All aviation services are conducted in accordance with CASA CAR-30 approval.

Delivery / Collection Details:

Fire Systems Services SA Pty Ltd
100 South Terrace
Wingfield SA 5013

Opening Hours:

0900-1700 MON-FRI
(Not open during national and SA public holidays)

Order Instructions:

Prior to delivering any cylinders to FSS, please email this form and associated current technical data to info@firesys.com.au for pricing, time estimates and order confirmation. For any urgent queries, please call FSS directly: **1300 883 474**.
